

Jabra Enhance™ Pro PM

Phone calls made easy

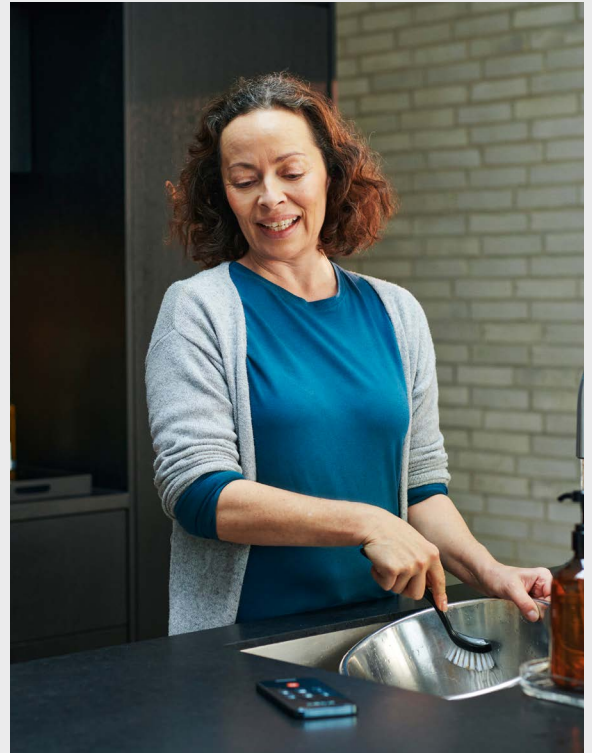

We have made it more convenient than ever to stay in touch with the people in your life. Now you can enjoy hands-free phone and FaceTime calls for iPhone and iPad*, using state-of-the-art streaming technology.

Use Jabra Enhance Pro PM as a wireless headset to take calls and talk without needing to hold your iPhone or iPad. Just tap the button on your hearing instruments to answer and stream a call directly to your ears.

Free up your hands while talking and enjoy the ability to multitask. And, with low battery consumption, you have the power to keep on talking all day.

Clear two-way dialogue

- When you talk, the Enhance Pro PM microphones pick up and transfer your voice to the caller.
- When you listen, the iPhone or iPad sends the caller's voice back to your hearing instruments.

How to get hands-free calls

Current Enhance Pro PM user: Your Costco hearing care professional can upgrade you to this feature with a quick fitting software update. They are ready to hear from you.

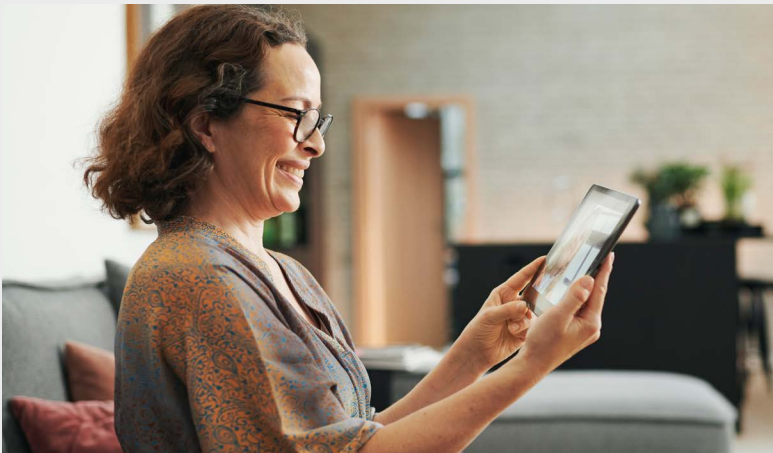

If you don't have Enhance Pro PM hearing instruments: Contact your Costco hearing care professional to find out more about Enhance Pro PM and hands-free calls.

Made for
 iPhone | iPad | iPod

* Jabra Enhance Pro PM hands-free calls are compatible with iPhone 11 or later, iPad Pro 12.9-inch (5th generation), iPad Pro 11-inch (3rd generation), iPad Air (4th generation), and iPad mini (6th generation), with software updates iOS 15.3 and iPadOS 15.3 or later.

Welcome every call

No matter your preferences or lifestyle, Jabra has your calling needs covered. From the new hands-free calls to the following great options, choose the way you like to call and have conversations with confidence.

Easy Video Calls

Seeing and talking to loved ones online is more important than ever, and visual cues help with lip-reading. Use your Enhance Pro PM hearing instruments to FaceTime family and friends from your iPhone or iPad, and even have a video consultation with your Costco hearing care professional, with the natural sound of their voices streamed directly to your ears.

Effortless calls without streaming

Easily enjoy non-streamed phone calls from fixed, cordless or mobile phones. Place your phone near your ear as usual and Enhance Pro PM with M&RIE (Microphone & Receiver-In-Ear) will find the 'sweet spot' for collecting sound. The extra microphone in the ear picks up conversations clearly without whistling sounds.

Enhance Pro PM users have found it easy to position their phone to benefit from our most natural sound and would recommend it to others.
