Natural hearing with an AI advantage

Did you know when it comes to processing sound in noisy environments, nothing beats the power of the human brain? With Jabra Enhance Pro 30, we combine your brain's natural ability with Intelligence Augmented – a human approach to AI that allows you to choose what you want to hear.

DualChip, Triple Processor

Jabra Enhance Pro 30 leverages the power of our 360 Chip combined with our new Deep Neural Network (DNN) Chip to augment the brain's natural processing. Together, these three processors (360 Chip + DNN Chip + your brain) work to filter noise so you can focus on the speech you want to hear, even in noisy environments.

360 Chip

DNN Chip

Your brain

Powered by our DNN Chip, our new Intelligent Focus feature enables you to experience less noise and more of what matters no matter where you are.

With Clear Focus, our latest directional beamformer, even more noise is reduced around you, providing optimal speech clarity.

Small size – no compromises

The Jabra Enhance Pro 30 Micro RIE is our smallest AI hearing aid and best solution for hearing in noise.¹⁻³ Our latest technology and discreet styles are suitable for mild-to-profound hearing losses, helping you awaken a world of sound.

Micro RIE
Actual size

All-day battery life
with up to 30 hours

All-weatherproof
IP68-rated protection

Colors that suit you
with four to choose from

Support every step of the way

Conveniently connect with your Costco Hearing Care Professional wherever you are, using Online Services in the Jabra Enhance Pro app.

Live Assist appointments

Supplement in-store visits with real-time 'Live Assist' video appointments from the comfort of your own home.

Remote Fine-tuning adjustments

Request adjustments anytime within the app to optimize your hearing aid settings remotely.

3 steps to get started

- 1 Check your device compatibility using the QR code below, then download the Jabra Enhance Pro app

Scan the QR code to check your mobile device compatibility

- 2 Pair your Jabra Enhance Pro 30 hearing aids to your compatible device
- 3 Connect to your hearing care professional using 'Online Services' in the app

CROS/BiCROS:

Improved audibility for single-sided deafness

The Jabra Enhance Pro 30 CROS Transmitter is designed for those with hearing in only one ear. You can:

- Transmit sound from the poorer hearing ear to the better ear
- Hear sound from all directions
- Experience improved speech understanding and awareness

Jabra Enhance Pro 30

About us

150 years of engineering audio and hearing solutions has made one thing clear: great sound can be as individual as you are. At Jabra, we create uniquely personalized audio and hearing solutions that work for you, whoever you are, whatever you do.

Your Costco Hearing Aid Center:

Manufacturer according to FDA: GN Hearing

5005 Dean Lakes Blvd.
Shakopee, MN 55379
USA

¹Hands-free calls are compatible with iPhone 11 or later, iPad Pro 12.9-inch (5th generation), iPad Pro 11-inch (3rd generation), iPad Air (4th generation), and iPad mini (6th generation), iPad (10th generation) or later, with software updates iOS 15.3 and iPadOS 15.3 or later. Bluetooth LE Audio works with Jabra Enhance Pro 30 and compatible mobile devices with Bluetooth 5.3 or later and the latest Bluetooth LE Audio streaming protocol.

²The CROS transmitter wirelessly sends sound from the non-hearing ear to the hearing ear, providing basic sound transmission with limited features.
